

# PT210P: Contents

<b>Preface .....</b>	<b>xiii</b>
<b>Lesson 1. Non-Linear Video in Pro Tools .....</b>	<b>1</b>
Pro Tools   SYNC HD .....	2
Connecting SYNC HD.....	2
Connecting Clock for Pro Tools   HD-Series Audio Interfaces.....	3
Enabling SYNC HD.....	4
Configuring the Synchronization Settings.....	5
Loop Sync .....	6
Selecting a Clock Reference .....	7
SYNC Setup Clock Reference .....	7
Video Reference as a Clock Reference.....	9
What is Tri-Level Sync?.....	10
Connecting a Video Reference Source .....	11
Video Reference Format.....	11
Matching HD Reference Rate Settings .....	13
Valid and Invalid Clock Sources.....	14
Setting Frame Rates .....	15
Timecode Rate.....	15
Secondary Timecode Ruler.....	16
Feet+Frames Rate .....	16
Setting the Session Start Time.....	17
Non-Linear Video Options.....	18
The Avid Video Engine .....	18
QuickTime Video.....	19
Working with QuickTime Video .....	19
Preparing QuickTime Video for Import into Pro Tools .....	20
Setting the Video Engine Rate .....	21
Importing Video into Pro Tools   Ultimate .....	22
Configuring Video Import Options .....	24
Syncing QuickTime Video .....	25
Playback of Video on an External Monitor.....	27
Avid Video Peripherals .....	28
Third-Party Video Peripherals .....	32
Playback of Video through a Video Peripheral.....	33
Playback of QuickTime Video through Avid Video Peripherals.....	33
Video Sync Offset.....	34
Importing Embedded QuickTime Audio into Pro Tools .....	35
SYNC Options for HD Video Formats .....	37
Review/Discussion Questions.....	38
<b>Exercise 1. Hardware Configuration .....</b>	<b>39</b>

<b>Lesson 2. Working with the Video Track .....</b>	<b>45</b>
The Video Track.....	46
Video Track Views.....	46
Selecting the Main Video Track.....	46
Video Engine Rate Indicator.....	48
Video Track Features.....	48
Multiple Video Clips on an Individual Video Track .....	48
Video Track Type Icons.....	48
Video Track I/O .....	49
Locking Video Tracks.....	52
Video Window Options.....	53
Display Options.....	53
Resizing the Video Window.....	54
Video Preferences.....	55
Video Editing Options .....	56
Video Clips in the Clip List.....	56
Renaming Video Disk Files.....	56
General Video Editing Features .....	57
Selecting within Video Frame Boundaries .....	58
Selecting and Editing Across Multiple Audio and Video Tracks .....	59
Video Clip Groups.....	59
Looping Audio with Avid Video Present .....	60
Video Universe Window .....	60
Selecting Zoom Resolutions in the Video Universe Window .....	61
Selecting Ranges in the Video Universe Window .....	61
Navigating Edits on Avid Video Tracks.....	62
Optimizing Video Playback in Pro Tools.....	63
Review/Discussion Questions .....	64
<b>Exercise 2. Working with Non-Linear Video .....</b>	<b>65</b>
<b>Lesson 3. Using Pro Tools with a Video Satellite .....</b>	<b>73</b>
Introduction to Satellite Link .....	74
Pro Tools System Requirements.....	74
Using Media Composer as a Video Satellite .....	75
Media Composer System Requirements.....	75
Avid Media Composer Terminology.....	76
Opening Sequences for Playback on a Video Satellite System .....	77
Matching Media Composer and Pro Tools Settings with Video Satellite.....	87
Outputting Video to a Computer Monitor .....	88
Connecting Pro Tools and a Video Satellite .....	88
Enabling Media Composer as a Video Satellite .....	89
Enabling Pro Tools as a Video Satellite LE.....	90
Configuring a Satellite Link Network.....	91
Configuring an Administrator System .....	91
Adding Satellites to the Network .....	92

Linking and Unlinking Pro Tools and a Video Satellite.....	93
Caveats for Connecting Pro Tools and a Video Satellite .....	95
Network Reset for Satellite Systems .....	95
Example Video Satellite Usage Scenarios .....	96
Scenario 1: Film Mix Dubbing Stage .....	96
Scenario 2: Television Drama .....	96
Review/Discussion Questions .....	97
<b>Exercise 3. Using Pro Tools with a Video Satellite .....</b>	<b>98</b>
<b>Lesson 4. OMF and AAF File Interchange .....</b>	<b>111</b>
Importing OMF and AAF Media .....	112
OMF/AAF Overview .....	112
OMF/AAF Export Types .....	113
Importing Sequences into Pro Tools .....	116
Opening and Importing OMF or AAF Sequences .....	116
Importing OMF/AAF Tracks into Pro Tools .....	116
Import Track and Video Options .....	118
Avid Media Composer to Pro Tools AAF Workflow.....	126
Media Composer Sequence to Pro Tools Session.....	126
Importing AAF Sequences into Pro Tools from Avid Video Applications .....	128
Importing a Video Satellite Track into Pro Tools .....	131
Importing MXF Media .....	132
Importing MXF Audio into Pro Tools .....	132
Pro Tools Supported Import/Export of OMF/AAF Sequences .....	132
Review/Discussion Questions .....	134
<b>Exercise 4. AAF File Interchange.....</b>	<b>135</b>
<b>Lesson 5. Non-Linear Field Recorder Workflows.....</b>	<b>143</b>
Using Pro Tools with a Field Recorder .....	144
Field Recorder Terminology.....	145
Supported Field Recorder Audio Files and Metadata.....	146
Displaying Field Recorder Metadata in Pro Tools.....	146
Workspace Support for Field Recorder Metadata .....	147
Field Recorder Workflows.....	149
Ensuring Metadata of Source Files Has Been Preserved .....	149
Receiving Source Files.....	149
Importing Source Files into Pro Tools .....	151
Importing an OMF or AAF Sequence into Pro Tools.....	151
Importing Alternate Source Audio Directly into Pro Tools.....	151
Designating Field Recorder Tracks.....	152
Select Areas to Search.....	152
Selecting an Alternate Channel to Replace a Clip .....	153
Field Recorder Channels Match Criteria .....	154
Expanding Alternate Channels to New Tracks.....	158
Expanding Alternate Channels by Timecode Only.....	159
Review/Discussion Questions .....	160

<b>Exercise 5. Non-Linear Field Recorder Workflows .....</b>	<b>161</b>
<b>Lesson 6. Dialog Editing Techniques.....</b>	<b>171</b>
What is the Role of a Dialog Editor?.....	172
Manual Dialog Editing Workflow.....	172
Dialog Tracklay Techniques.....	173
Shuttle Mode Editing .....	174
Tab to Transients .....	175
Strip Silence .....	176
Creating and Adding Room Tone and Fill.....	177
Strip Silence Extract .....	177
Repeat to Fill Selection.....	178
Timeline Drop Order .....	180
Tandem Trimming.....	180
Locking Clips, Edit Tools and Edit Modes .....	181
Edit Locking Clips .....	181
Time Locking Clips .....	182
Edit Tool/Mode Keyboard Lock.....	183
Cleaning Up Dialog .....	184
Audio Restoration Workflow.....	184
De-Clicking .....	185
De-Buzzing .....	186
Broadband De-Noising .....	187
Committing Edits and Audio Processing .....	188
Committing Tracks .....	188
Freezing Tracks .....	189
Track Commit versus Track Freeze .....	192
Rendering Pre or Post Plug-Ins .....	192
Review/Discussion Questions .....	194
<b>Exercise 6. Dialog Editing and Tracklay .....</b>	<b>195</b>
<b>Lesson 7. Recording Voiceover and ADR .....</b>	<b>201</b>
Dialog and ADR Recording Workflow .....	202
Recording Voiceover Narration.....	203
Setting Up to Record ADR.....	203
Setting Input Monitoring Modes in Pro Tools .....	204
Record Mode Options .....	205
Voiceover and ADR Recording.....	206
Recording using Edit Playlists versus Audio Tracks .....	206
Auditioning ADR Loop Record Takes .....	210
Setting the Alternates Match Criteria .....	210
Selecting Alternate Takes.....	211
Track Compositing with Voiceover and ADR .....	213
Auditioning Alternate Playlists .....	214
Copying/Moving Selections to Playlists.....	215
Target Playlists.....	221

Alternative Playlist Editing Techniques .....	222
Deleting Playlists.....	224
Playlist Display Options .....	225
Reordering Playlist Lanes .....	225
Resizing Playlist Lanes.....	226
Renaming Playlists Lanes .....	227
Playlist Lanes in the Track List .....	227
Rating Clips .....	227
Filtering Lanes.....	229
Syncing Dialog and ADR.....	230
Sync Point Audio Editing.....	230
Layered Editing .....	233
Using Time Compression/Expansion .....	236
Review/Discussion Questions .....	243
<b>Exercise 7. Editing and Fitting ADR .....</b>	<b>244</b>
<b>Lesson 8. Sound Design and Asset Management .....</b>	<b>251</b>
Workspace Catalogs.....	252
Workspace Catalogs View .....	252
Clip Names in Catalogs.....	254
Comments and Catalogs.....	254
Creating Music and Sound Effects Catalogs.....	255
Modifying and Updating Catalogs .....	258
Locating and Backing Up Catalogs .....	260
Importing Music Using Catalogs .....	260
Importing Offline Items from a Catalog.....	262
Spotting Sound Effects.....	264
Spotting with Non-Linear Video .....	266
Time Stamps .....	268
Types of Time Stamp .....	268
Overwriting a User Time Stamp.....	269
Displaying Time in Clips .....	271
Clip Grouping.....	272
Replacing Clips (Pro Tools   Ultimate only) .....	274
Import Session Data Attributes .....	276
Using Track Presets.....	282
Saving Track Presets .....	282
Selecting Attributes for Track Presets .....	283
Recalling Track Presets .....	284
Modifying Track Presets.....	285
Importing Markers/Memory Locations and Window Configurations.....	286
Review/Discussion Questions .....	288
<b>Exercise 8. Sound Design and Asset Management .....</b>	<b>289</b>

<b>Lesson 9. Mixing to Picture .....</b>	<b>299</b>
Mixing Terminology .....	300
Large-Scale Mixing Workflow .....	301
Audio Post Production Mixing Workflow .....	301
Session Signal Flow .....	303
Organizing Sessions for Mixing.....	304
Verifying and Changing Track Outputs.....	304
Assigning Multiple Outputs.....	304
Input and Output Shortcuts.....	306
Creating Sub-Groups .....	306
Routing to Tracks .....	308
Stem Mixing .....	310
Dipped versus Undipped Stems.....	310
Creating Printmaster Stem Record Tracks.....	311
Printing Mixes and Recording Stems Internally.....	314
Destructive Record Mode .....	316
DestructivePunch Record Mode (Pro Tools   Ultimate only).....	316
Using Memory Locations for Post Production Mixing .....	318
Saving Memory Locations for Post Production .....	318
Using Memory Locations to Mix in Layers .....	320
Advanced Metering for Audio Post Production.....	320
Loudness and Peak Program Metering .....	321
Track and Master Meter Types .....	322
Average Loudness Metering.....	323
Trim Automation (Pro Tools   Ultimate only).....	325
Varieties of Trim Mode.....	326
Writing Trim Automation.....	327
Stereo Mixing and Pan Depth .....	330
Pan Law.....	330
Variable Stereo Pan Depth.....	330
Review/Discussion Questions .....	332
<b>Exercise 9. Mixing to Picture .....</b>	<b>333</b>
<b>Lesson 10. Exporting Deliverables .....</b>	<b>345</b>
Export Options .....	346
AAF Export Overview .....	346
OMF Export Overview.....	347
Pro Tools Export Methods .....	348
Export Clips as Files.....	348
Bounce to Disk.....	350
Track Bounce.....	350
Export Selected Tracks as New OMF/AAF.....	352
MXF Audio Export .....	358

Pro Tools and Media Composer Workflows ..... 361

    Pro Tools Rendered Mix or Audio Files to Media Composer Clip..... 361

    Pro Tools Session to Media Composer Sequence..... 361

Exporting Selected Tracks as a New Session ..... 362

    Rendering Stems to Tracks for Export..... 363

Export for Web Delivery or Final Evaluation ..... 364

    Bouncing the Video Track to QuickTime Video ..... 364

    Bouncing Multiple Sources to QuickTime Video (Pro Tools | Ultimate only)..... 366

    Bounce to QuickTime Settings..... 367

    Bouncing MP3 to QuickTime Video..... 368

    Bounce to MPEG-1 Layer 3 (MP3) ..... 368

Summary of Audio Export Options..... 369

Review/Discussion Questions ..... 370

**Exercise 10. Exporting Deliverables ..... 371**
